## CRY OF HOME RULE

Gov. Miller Urges Dropping of Local Jealousies to Get Needed Improvement.

Something Needed to End Antiquated Facilities Here That Add to Costs.

which is the proper agency to coordinate railroads terminating in Jersey. The Governor said. "That, I supersey," the Governor said. "That, I supersey, an amplication of the doctrine." by the Governor said. "That, I suppose, is an application of the doctrine
of bome rule! I suppose they think
that Paterson and Hoboken and Jersey

"What I want

city administration of New York to come over to New Jersey and give them home ruis!

"What I want to emphasize is that this problem is not a city problem. It is a problem embracing this entire diarrict, and I want to impress upon you that it will not be solved by appealing to local feelings, prejudices or jealing to local feelings, prejudices or feelings, prejudices or jealing to local feelings, prejudices or jealing to local feelings, prejudices or feelings, prejudices or jealing to local feelings, prejudices or jealing to local feelings, prejudices or jealing to local feelings, prejudices or jealing feelings, prejudices or jealing feelings, prejudices or jealing feelings, prejudices, and the secure the cooperation of the arbitroads and upon a comprehensive plan of freight improvements in order to present a plan to the legislatures of the two States. It must be perfectly obvious to any one that the transcontinental railroads in New Jersey must be hooked up to this borough by a tunnel and with a belt line on this side of the river." I gov. Miller said the Port Authority's plan would facilitate and cheapen the distribution of food and other articles. He added that it was imperative that something be done to lift the burden that rests upon the consumer because of the present hardships and complexities of an antiquated system of commerce distribution in the metropolitan district. The Governor said it was a hazardous thing for him to undertake the discussion of such a subject with a municipal election but a few days off. "I want to say at the outset," he continued, "that nothing that I may say to you is intended to have the slightest political significance."

Attention was called by the Governor to the fact that the port authority had been approved by Congress as a solution of the problem, which, he said, would require the exercise in many respects of Federal power.

"Now that project was eppos

quire the exercise in many respects of Federal power.

"Now that project was opposed by some as being an interference with home rule," he said. "How a problem so vast, involving districts including many numicipalities, calling upon the exercise of both State and Federal power, could litestify the invocation of the doctrine of home rule was beyond my power of comprehension to grasp, and that plea did not prevsil with the Legislature, which passed the bill, or with me when I had occasion to sign it."

The use of the proper wool, the best dyes, properly handled, designs representing the highest and best type of Kastern art, combined with careful and bonest worknauship are all essential.

For those unfamiliar with Eastern rugs, we would emphasize the fact that there is no standard of quality in any weaving district. Names alone convey no idea as to the value of a rug.
